J.L. Anderson
Anderson Supply
2116 South 750 West
Woodscross, UT 84087

Dear Mr. Anderson:

RE: Small Mine Commencement Notification--ML 44272 CLAY

I have reviewed your notice and find it complies with our notification requirements. You may proceed with operations as outlined in your plan with the following stipulations:

1. All surface disturbance resulting from your operations on the leased lands will be fully reclaimed to the satisfaction of the Division of State Lands and Forestry and in compliance with the State of Utah Mined Land Reclamation Act.

2. Compliance with the State of Utah Antiquities Act forbidding disturbance of archeological, historical, or paleontological remains; and immediate suspension of operations and notification of the Division of State History in the event such remains are encountered.

3. Granting this approval does not alleviate the necessity to comply with the requirements of the Division of Oil Gas and Mining regarding this development. You must contact them and comply with their requirements before beginning any work. Their address is: Division of Oil Gas and Mining, 355 West North Temple, 3 Triad Center, Suite 350, Salt Lake City, UT 84180-1203.

4. The Division rules require a surety bond be posted to insure reclamation as well as compliance with all other lease terms, in the case of this operation the disturbance will take place on privately owned surface lands and therefore you are required to notify the surface owner and work out access and reclamation of the disturbed areas. Should you be unable to come to an agreement you will be required to reclaim to the specifications of the mined land reclamation act and post a bond with this Division in the amount of \$5,000.00 per acre of disturbance.

Sincerely,

JERRY W. MANSFIELD
MINERAL RESOURCES SPECIALIST
